Entered at the postoffice in Tonopah as second class matter,

A MOOTED QUESTION.

HAT effect the government's intention to "corner" the ly necessary. The reports in full possible with the funds at hand. As silver market, limit exports and fix a maximum price, follow: will have on the local situation largely depends on what price the government deems adequate. Governor Boyle is included in the less sanguine commentators. He said: "According to dispatches coming from Washington, it is proposed to establish a maximum of less than 86 cents per ounce. It is serious question conditions in their respective dis ercised the proper spirit in caring whether silver can be profitably produced in Nevada for such tricts. In the town of Tonopah we for the strets in their immediate a price, in view of the unparalleled increases in the cost of mining operations. The effect of limiting the market for silver is also a serious matter for Nevada to consider."

The governor is considering calling a meeting of all silver found to be overflowing and the fifth producers of Nevada as a first step towards arousing this and permitted to run upon our public other silver-producing states of the West to the situation. Henry Rives, secretary of the Nevada Mine Operators' association, is ouoted as saving: "We have every reason to believe that silver if left undisturbed would go to one dollar on ounce or certain nuisances, there were others better, and for the government to arbitrarilly fix its price at a who paid no attention to the said the town limits of said section, beg on roads was mailed to our foreman, far less figure and at the same time practically destroy the requests whatesoever, thus indicat- to submit the following report: foreign market would be a serious blow to the producers of the state. Silver producers have no objection to a price being fixed forced to by our health officials. of sewage, unkept outhouses and a hattan and found same very bad. But that is remunerative to the industry as a whole, provided nothing Numerous complaints against the total disregard of the laws of cleanli- it will perhaps get better, as wet is done to wipe out the foreign demand, upon which they must latter have ben filed by the county depend for silver consumption. The Mine Operators' association is going into the matter thoroughly and will insist that the voice have been instituted by the district improvement. of the producers be heard before any such regulations are attorney. established."

Mark Walser, president of the Nevada Packard Mines com- but one solution, and while it is pany, told a Reno paper that the smaller properties of the state somewhat ancient and has been conare making less profit upon their ore at the present market price bodies of this character, it is at Spaulding) in a very bad condition. of silver than when it was 60 cents an ounce, because of the in- the same time the proper remedy. Some of them should be condemned creased cost of labor, powder, eyanide, etc. L. A. Friedman and and that is the creation of sanitary and filled up. We found a number George Wingfield also have expressed concern at the proposal to districts as outlined by the state of others in a very bad condition; in limit exports of silver, holding that such limitation, if extreme, years ago. Until such a system is unsanitary condition. Reported this were: Tea, 36,416,000 pounds, and Twin Springs Slough, at a point in would negative any maximum price that might be fixed.

But in the meager dispatches that told of the American-Her from the present nauseating police and they investigated British conferences on silver there is little indication that the condition. Much could be said conembargo on silver exports is to be as stringent as feared. Only part of the supply would be used for the government, the rest but we do not deem it necessary, made a careful investigation as to being released for the regular industry. The idea would be to since we have already expressed the sanitary conditions, and where hold down the prices for coinage purposes in the face of heavy the cause and effect. foreign silver purchasing competition. The plan does not contemplate the cutting off of the supply to jewelers and other users of silver, the government using only part of the metal of the high school building were Following is a list of the places under contract for coinage and would release the balance for found to be in a neat and orderly which were unsanitary and reported normal industrial purposes. Some believe that the setting of a condition. In the high school build to the health officer: maximum price-even though it were slightly lower than 86 cents ing the toilet rooms were found to Toilet near small white house, near -would have salutary effect. These contend that price fixing be in a very uncleanly condition, whereupon the committee caused a Tollet Diamond laundry would be a step in the direction of standardizing the metal, and that purchasers of the metal not used by the government would school trustes advising them of such have to pay a price decidedly different from that paid by the government, a price fixed by the law of supply and demand.

THE SANITATION QUESTION.

THE grand jury's sanitation report is not likely to arouse any distinct feeling of pride in Tonopah's sanitary facilities. I distinct feeling of pride in Tonopah's sanitary facilities, assume that their neglect to answer Location of principal place of business, the report: "In the town of Tonopah we find conditions or acknowledge our communication ness, Carson City, Nevada, Location to be in a most deplorable condition." Some property owners, was not a matter of discourtesy, but the report explains, have disregarded the requests of the grand jury to clean up, "indicating that a portion of our residents will not be sanitary unless forced to be by our health officials."

They should be forced. Sanitary districts, as advised by the grand jury, should be created. Out of poor sanitation-or no sanitation-comes disease. A condition such as that reported by the last grand jury is not a thing to temporize over. The suggestions made should be acted upon.

AN EXPECTED PROTEST.

TAPAN, the United States has agreed, has "special interests" in to their food, warmth and general day, January 15th, 1918, to pay the delinquent assessment, together with China because of "propinquity." We presume that means where Chinese interests conflict with Japanese, the latter are conserved. It is, in effect, a denial of Chinese sovereignty, and one can hardly blame China for protesting. Were Japan to enter an agreement with Mexico conceding our southern neighbor had "special interests" in the United States because of "propinquity," or if Japan should enter such an agreement with England because our border touches Canada, we would probably be quite unable to see the justice of it, and would protest, exactly as China is protesting.

The rumored retirement (by request) of General Haig is rather an anti-climax. For a long time we have heard nothing but praise for Haig and the Haig methods. Now it is intimated he is going to get what is vulgarly known as the can. So with General Cadorna, who was extolled and extolled again for his strategy. He is now no longer the big chief of the Italians. Perhaps the individuals on top are not, after all, so all-important.

No No No No No No No No

Money in circulation in the United States has increased to 34,924,928,348, a per capita of circulation of \$48.03. This is the highest ever recorded. It exceeds the figure of a year ago by almost \$5. This increase is due almost entirely to the tremendous increase in federal reserve bank notes. Notwithstanding the government's efforts to withdraw gold coin in circulation at the present time the amount of gold coin in circulation is \$371,000,000 more than a year ago. The general stock of money of all sorts held in reserve, as well as money in circulation, is \$5,768,711,656, and increase of \$1,000,000,000 within the year.
